When your safety depends on it™

Hayes Air Actuated Controller

The Air Actuated® electric trailer brake controller provides smooth brake actuation. The electric brakes on the trailer operate off the air brake system of the tow vehicle. When the brake pedal is depressed, the application of the electric trailer brakes is proportional to the vehicle's brake pedal pressure.

Features and Benefits

- Operates 2, 4, 6, and 8 electric trailer brakes
- Automatic or manual operation of the trailer electric brakes
- Red indicator light shows braking system intensity and proper function
- Compact case design with black textured surface
- Hazard flasher immunity prevents pulsing of the brakes when flashers are activated
- Compact controller has black textured finish
- Mounting bracket and screws included for easy installation
- One year limited warranty
- Made in the USA
